Develop the Business Development Framework for Water, Environment, Energy and Nexus Project: مشروع الترابط بين البيئة والمياه والطاقة والغذاء في إمارة أبوظبي

About EAD

The Environment Agency – Abu Dhabi (EAD) is the government agency responsible for protecting the environment and wildlife in the Emirate of Abu Dhabi as per Law no. (16) Of 2005 pertaining to the Reorganisation of the Abu Dhabi Environment Agency.

Brief Scope of work:

As part of Abu Dhabi Government Aspiration 2041, one of the key strategic objectives of this forward-looking initiative is to achieve a clean environment and sustained biodiversity in the Emirate of Abu Dhabi. To achieve this objective, EAD is leading in the design and implementation of a Natural Resources, Energy and Environment Programme (NREE) including a Water, Environment, Energy and Food Nexus project (Nexus). The project aims to achieve the following:

- More sustainable utilisation of the natural resources in the Emirate of Abu Dhabi,
- Improved water, energy, and food security, and
- More cost-effective projects and efficient management in the Water, Environment, Energy and Food sectors.

EAD is seeking to recruit a consultancy service provider to assist EAD in compiling a Terms of Reference to for the implementation of NEXUS, as such the consultant will complete the following tasks:

- Establish a business framework for the establishment of the Water, Energy and Food Nexus project (Nexus)
- Identify the objectives Nexus project
- Define the domains of focus of the Nexus framework

The project shall include the articulation of concerned sectors and stakeholders' interests, concerns and legal mandate.

Duration: 6 Months
